The Ideal Network Club Testimonials (From Ideal Network Club Members and workshop participants who have experienced content designed for The Ideal Network Club) 2/08

"I have been through two sessions and have already seen results!! After the email campaign in which I sent out 25 emails asking for individuals to help me make connections to homeowner/condo associations, I received a positive response from 16 of those with names and numbers within 3 days!! WOW!! It was unbelievable. I am not only using the techniques I learned from the Ideal Network Club in my business but also in my personal life. Thanks Mary, you have been a tremendous help!!" Kevin Whitley, Emerald Isle Insurance

"The hard work and time you have put into this magnificent networking club is incredible. I can honestly say that your networking ideas are truly genius. I have begun a path into new business relationships that with your help and guidance, I would have never thought I would have had a chance. The best part about it is that these businesses were looking for a company with a solid commitment to excellence and we were there for the picking, they just didn't know it yet, and that was where you came in... teaching the ways of the Ideal Network. Thank You Mary...thank you so much. Your Friend and Ideal Network Fanatic," Josh Fink, Service Coordinator, Advance Mechanical, Inc., Heating and Air Conditioning Contractors

"This is by far one of the best books I've ever read and am glad to have it in my library. It is a must-read if you're in sales, real estate, insurance, self-employed, mlm, or any profession that benefits from networking and building relationships. I have also had the pleasure of meeting Mary as a member of one of her Ideal Network Clubs and she is a great speaker, trainer, mentor, and motivator. If you have the chance to attend one of her seminars or events, do. If not, don't miss this book. It will exceed your expectations and help you advance in your career." Donna Noyce, Prominent Agent and Money Matters

"I wanted to thank you for the class, 'How to Organize The Ideal Network for Quicker and Easier Success' and your book ('Who's Hiding in Your Address Book?'). It was truly an eye-opening class on the power of networking...Ideal Networking!...like I have never heard before." Kevin E. Naus, New Business Start-Up

"I was told you were fabulous and the evaluations only verify it! I am reading the book and will look forward to seeing you again." Gail Nichols, Greenville Pitt Community College Small Business Center

"I want to put the Ideal Network in place with my key contacts. This was way above expectations!" Mike Gardner, Coffee Shop Start-Up

"As the facilitator for The Ideal Network Club at our Chamber, I must say that the feedback from our participants just after the first session was tremendous. I have never seen such eager participants. The sessions have a way of teaching you to dig deep from within and think totally outside the box for networking and marketing opportunities. Participants are from every occupation --real estate professionals, a security salesman, network marketers, bankers, electricians, decorators, and even a non profit event planner. This Club has proven to be a benefit to everyone." Debbie Godwin, Director of Sales, Amerisuites
